

## **EUROPE DAY**

### **10. MAI 2019**

On the 10th May 2019 we had our Europe Day in school. The day before we could choose which activities we wanted to do.

Then the big day was there. YEAH!!!

We had two guests; their names were Mr. Römer and Mr. Ewald. Then the day started and all children went to their groups. Ms. Berg and her group learned European dances with Mr. Römer from Berlin. Another group learned how to count in Spanish with Mrs. Erhardt. Together with Ms. Kilbasa we learned Polish and a polka dance from Poland. With Mrs. Roden and Mr. Ewald from the Winkelmann Museum, we learned a lot about the Greek gods, Greek legends and about ancient Greek clothes. Ms. Kirchhoff also had an activity, where you could practice for four hours and then present a play about how Europe got its name. Some children learned to make Italian snacks. Others did map puzzles and learned about the flags of the countries in Europe. In the fourth hour we all had a long general school meeting where some children presented what we learned in our various groups. Annemarie from class 4c presented her own project; an EU boat. She also thanked all the other children who helped her and they got a big applause. At the end we all danced a European dance with Mr. Römer. Then the Europe Day was over ☹

Thank you to all the persons who helped to plan the Europe Day
